Crack & Crevice® Pressurized Residual

KILLS:
Ants, Booklice, Boxelder Bugs, Carpenter Ants, Carpenter Bees, Centipedes, Chocolate Moths, Clover Mites, Cluster Flies, Cockroaches, Crickets, Dermestids, Drugstore Beetles, Earwigs, Elm Leaf Beetles, Flour Beetles, Grain Weevils, Millipedes, Scorpions, Silverfish, Sowbugs, Spiders, Springtails, Termites*, Ticks, Trogoderma (Cabinet, Khopra and Warehouse Beetles), Wood Infesting Borers and Beetles and Wood Wasps

* Not a substitute for mechanical alteration, soil or foundation treatment.

FOR USE IN:
Apartments†, Campgrounds, Food Storage Areas, Homes†, Hospitals*, Hotels, Meat Packing and Food Processing Plants, Motels, Nursing Homes*, Resorts, Restaurants and other Food Handling Establishments, Schools**, Supermarkets, Transportation Equipment (Buses, Boats, Ships, Trains, Trucks and Planes††), Utilities, Warehouses and other Commercial and Industrial Buildings

† Remove patients before using. After treatment, ventilate rooms for 30 min before returning patients to rooms.
†† Do not apply in aircraft cabins.

ACTIVE INGREDIENT:
Cyfluthrin ................................................................................................................................................................. 0.1%

OTHER INGREDIENTS:........................................................................................................................................ 99.9%
Contains petroleum distillates.

EPA Reg. No. 499-470
KEEP OUT OF REACH OF CHILDREN

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wash thoroughly with soap and water after handling.

ENVIRONMENTAL HAZARDS
This product is toxic to fish, birds and other wildlife. Do not apply direct to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment or disposal of equipment washwaters. Apply this product only as specified on the label. Spray will damage plant foliage.

PHYSICAL OR CHEMICAL HAZARDS
Flammable. Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Do not use or store near heat or open flame. Exposure to temperatures above 130°F may cause bursting. Do not spray directly into any electronic equipment such as radios, televisions, computers, etc.

FIRST AID
IF SWALLOWED: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of soap and water after handling. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wash thoroughly with soap and water after handling.

IF IN EYES: Hold eyes open and rinse slowly and gently for 15-20 min. Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN: Contains petroleum distillates. Vomiting may cause aspiration pneumonia. No specific antidote is available. Treat the patient symptomatically.

NOTE: This specimen label is for informational purposes only. All uses may not be approved in all states. See labeling which accompanied product for Directions for Use or call 800-777-8570 for more information. For automatic specimen label updates, register at www.wmmg.com.
INDOOR TREATMENTS

CRAWLING INSECTS - Cockroaches, Demes- 
tids, Scorpions, Spiders, Earwigs, Crickets, 
Sowbugs, Millipedes, Centipedes: Apply as a 
Crack & Crevice treatment using the prescribed dosage 
into cracks, crevices and void spaces where insects may be 
brharasing. These may include, but are not limited to, 
openings around pipes and sinks, under refrigerators, 
behind baseboards, washing machines, stoves, cabi-
nets, sewers, floor drains and meter boxes. Spot treat-
ment may also be made to areas including, but not lim-
ited to, storage areas; closets; around water pipes, 
doors and windows; around refrigerators, cabinets, 
sinks, stoves and other equipment; shelves, drawers 
and similar areas.

TICKS: Apply as a Crack & Crevice treatment or spot 
treatment into infested and egg laying sites near pet rest-
ing areas including, but not limited to, cracks and crevices of 
baseboards and around door and window frames.

BOOKLICE & SILVERFISH: Apply as a Crack & 
Crevise treatment into cracks and crevices of base-
boards, door frames, bookcases and other harborage 
sites. Spot treatment may also be made to areas includ-
ing, but not limited to, storage areas; closets; around 
water pipes, doors and windows; around refrigerators, 
cabinets, sinks, stoves and other equipment; shelves, 
drawers and similar areas.

ANTS: Apply as a Crack & Crevise treatment into 
creacks, crevices and voids where ants may be traveling 
and/or foraging, including, but not limited to, around 
doors, window frames, wall voids and other structural 
creacks and crevices. Spot treatment may also be made 
to areas including, but not limited to, storage areas; 
closets; around water pipes, doors and windows; around 
refrigerators, cabinets, sinks, stoves and other equipment; 
shelves, drawers and similar areas.

GRAIN WEEVILS, FLOUR BEETLES, CHOCO-
late Beetles, Drugstore Beetles, Trogo-
dermas (In Exposed Adult and Larval Stages) and 
Hibernating Stages of Box-
elder Bugs, Elm Leaf Beetles, Cluster 
Flies and Glover Mites: Apply as a Crack & 
Crevise treatment into cracks, crevices and/or voids 
where these insects may be harboring or hibernating. 
Infested areas may include, but are not limited to, cracks 
and crevices, stairwells, pantries, wall voids, 
around window and door frames, under siding and in 
machinary. Spot treatment may also be made to areas 
including, but not limited to, storage areas; closets; 
around water pipes, doors and windows; around refrig-
erators, cabinets, sinks, stoves and other equipment; 
shelves, drawers and similar areas.

APPLICATIONS IN FOOD 
HANDLING ESTABLISHMENTS

Food handling establishments are places other than pri-
vate residences in which food is held, processed, pre-
pared or served.

FOOD AREAS: Includes areas for receiving, storage, 
packing (canning, bottling, wrapping, boxing), preparing, 
edible waste storage and enclosed processing sys-
tems (mills, dairies, edible oils, syrups). Serving areas 
(where food is exposed and facility is in operation) are 
also considered food areas.

Ants and Harvester Ants: Inject the nest at 
3 - 6 sites at a rate of 5 - 10 sec per site. For very large 
nests (over 36" diameter), increase the number of 
injection sites. Space injection sites in a circular pattern 
on the nest surface with one site in the center. To quiet 
active ants on nest surface, sweep surface with spray 
from a distance of 12". For best results, apply when 
temperature is 65 - 85°F, or in early morning or late 
evening hours. Treat new nests as they appear.

PERIMETER TREATMENT: For crawling insects, 
apply Cy-Kick as a Crack & Crevise or spot treatment 
into cracks and crevices where insects may enter 
premises or harbor. Areas to be treated may include, but 
are not limited to, weep holes, under siding, wall voids, 
soffits, around attic vents, cracks and crevices and 
openings around windows, doors and pipes. Treatment of 
infested fences and tree holes is permitted.

TICKS: Apply as a Crack & Crevise treatment or spot 
treatment into infested areas including, but not limited to, 
weep holes, under siding, wall voids, 
soffits, around attic vents, cracks and crevices and 
openings around windows, doors and pipes. Treatment of 
infested fences and tree holes is permitted.

TERMINES AND CARPENTER ANTS LIVING 
INSIDE TREES: Determine the highest and lowest eleva-
tion of the colony. Drill holes into colony at highest 
elevation and inject 5 - 10 sec. Do the same for lowest 
elevation. Drill intermediate holes every 4 ft between 
the upper and lower elevations if required.

AERIAL TERMITE CARTON IN TREES: Drill 
or punch hole into center of carton. Inject for 5 - 10 sec. If 
carton is greater than 12" across, open another injection 
site. Inject for 5 - 10 sec. Make one additional injection 
site for each 12" of carton.

TERMINES AND CARPENTER ANTS IN STUMPS, 
UTILITY POLES AND FENCES: Treat open holes or 
-drill horizontal holes in a circular pattern where insects 
are suspected. Inject 2 - 5 sec of product per hole.

TREATMENT FOR IN-GROUND SERVICE BOXES: 
Ants, Centipedes, Clover Mites, Cockroaches, 
Cricket, Earwigs, Millipedes, Scorpions, Silverfish, 
Sowbugs, Spiders (such as Black Widow and Brown Recluse), 
Snails use Whitmire Micro-Gen spray actuator with injection tube to treat open boxes and exposed 
surfaces. Do not contact any electrical wiring or mechani-
cal parts of meter.

STORAGE & DISPOSAL

Do not contaminate water, food or feed by storage 
or disposal.

STORAGE: Store in a cool, dry area away from heat 
or open flame and inaccessible to children.

PESTICIDE DISPOSAL: Wastes resulting from use 
of this product may be disposed of on site or at an 
approved waste disposal facility.

CONTAINER DISPOSAL: Do not puncture or incin-
erate! Empty container by using the product in accor-
dance with the label directions. Empty container for 
recycling, if available, or place in trash if allowed by 
state and local regulations. If container is partly full, 
contact your local solid waste agency or call 1-800-
CLEANUP for disposal instructions.

Contains no CFCs or other ozone deplet-
ing substances. Federal regulations pro-
hibit CFC propellants in aerosols.
