Product Facts (continued)

For use in horses only
Recommended to support and maintain healthy joints

- EquinylTM Joint Formula with Hyaluronic Acid may help reduce inflammation associated with training and competition without causing gastrointestinal side effects.
- **ComfortXTM** ingredient may reduce swelling and inflammation associated with training and competition, provides joint health support, increases flexibility and shortens recovery time by reducing the emigration of neutrophils to the site of the inflammation.
 - There are two types of glucosamine in EquinylTM Joint Formula with Hyaluronic Acid. The first is **regular glucosamine**, which provides an immediate supply of glucosamine HCl while the second form, **Patent Pending Time Release Glucosamine**, releases over 24 hours. This is more than 24X longer than normal glucosamine.¹
 - **Glucosamine** and **Hyaluronic Acid** help maintain synovial fluid that lubricates the joints all day.
 - **Hyaluronic Acid** has been added to provide additional joint support for flexibility and healthy joints.

Directions for Use: Enclosed scoop holds 1 ounce.
• Give 2 ounces (2 scoops) daily for first 1 to 2 weeks. Give 1 ounce (1 scoop) daily for maintenance or as directed by veterinarian.
• Store in a cool, dry place. Reseal after each use.

Warnings:
For animal use only.
Keep out of the reach of children and animals. In case of accidental overdose, contact a health professional immediately.
This product should not be given to animals intended for human consumption.
