

Forage First[®] Horse Rewards

Product Number
80876AAA

Treats for All Classes of Horses

25-lb bag

3-lb bag

Product Positioning

A source of energy that does not contribute to metabolic and digestive disorders and developmental orthopedic disorders (DOD) is a long-awaited breakthrough for the horse industry. ADM's equine products utilize vegetable fats and fermentable fiber sources to provide higher energy, lower starch formulations, which may help decrease the risk of digestive and metabolic disorders. Forage Products are formulated for today's performance horses using the latest scientific data. Forage First[®] Horse Rewards contain GROSTRONG[®] Minerals along with high-quality, multiple sources of protein, quality grains, and fermentable fiber sources to provide balanced nutrition for horses. Forage First programs combine good-quality forage, GROSTRONG vitamin-mineral products, Premium Hi-Fat Supplements, Premium Blends, and Fortified Feed products to produce balanced total rations. With this combination of feeds, horses can be healthy and perform at their best when fed less grain than they would receive from traditional horse rations. Consequently, horses are at less risk of metabolic and digestive disorders and DOD that may result from high-starch intake.

Forage First Horse Rewards are a Forage First forage product. Horse Rewards are formulated as nutritionally balanced treats for all classes of horses. Horse Rewards are not intended to be fed as the entire ration nor as the entire concentrate portion of a horse's ration.

Product Description

Forage First Horse Rewards are high-quality, apple flavored, palatable, nutritionally balanced treats in cube form.

Features

Apple flavored
Select ingredients, consistent formulation
Nutritionally balanced
Limited starch formulation
Highly digestible, fermentable fiber
Contains GROSTRONG Minerals
Provides Prospanse[®] yeast
Provides natural-source vitamin E
Cube form

Benefits

Readily accepted by horses.
Ensures product consistency and dependable nutrient sources.
Compatible with all balanced feeding programs.
The use of digestible fiber sources results in a treat with a lower starch content, which research shows decreases the risk of digestive disorders.
Lowers the starch content of the diet, which is favorable for the equine digestive system, while at the same time provides energy in a form utilizable by the horse.
Provides 28 major minerals, trace minerals, vitamins, and electrolytes (including salt) in correct amounts and ratios to ensure horses receive needed nutrients
Studies have shown yeast enhances feed palatability, digestibility, and hindgut fermentation.
Protects body tissues from oxidative damage. Vitamin E is vital to immune system functioning and may be especially important for working horses as they are more prone to exercise-induced muscle damage. Research shows natural-source vitamin E is more bio-available compared with synthetic vitamin E.
Easy to feed and reduces waste.

Product Form/Packaging

⁵/₈" cube form in 25-lb bags (80876AAA56).

⁵/₈" cube form in 3-lb bags (80876AAA5A – available as a case of eight 3-lb bags).

How Much is Needed

- Feed as a treat (see Feeding Directions).

Guaranteed Analysis

Crude Protein, min.	12.0%
Crude Fat, min.	2.5%
Crude Fiber, max.	25.0%
Acid Detergent Fiber, max.	32.0%
Neutral Detergent Fiber, max.	48.0%
Calcium (Ca), min./max.	0.6-1.1%
Phosphorus (P), min.	0.5%
Copper (Cu), min.	20 ppm
Selenium (Se), min.	0.3 ppm
Zinc (Zn), min.	150 ppm
Vitamin A, min.	2,900 IU/lb
Vitamin D, min.	250 IU/lb
Vitamin E, min.	50 IU/lb

Ingredients

Soybean Hulls, Wheat Middlings, Dehydrated Alfalfa Meal, Cane Molasses, Calcium Carbonate, Ground Flaxseed, Salt, Brewers Dried Yeast (*Saccharomyces Cerevisiae*), Sodium Propionate (A Preservative), Manganous Oxide, Monocalcium Phosphate, Dicalcium Phosphate, Zinc Oxide, Copper Sulfate, Magnesium Oxide, Defluorinated Phosphate, Ferrous Sulfate, Vegetable Oil, Potassium Iodide, Cobalt Carbonate, Sodium Selenite, Natural and Artificial Flavors, Rice Hulls, Biotin, Vitamin A Supplement, Thiamine Mononitrate, Vitamin E Supplement, Riboflavin Supplement, d-alpha Tocopheryl Acetate, Calcium Pantothenate, Niacin Supplement, Vitamin D₃ Supplement, Vitamin B₁₂ Supplement, Menadione Sodium Bisulfite Complex.

Feeding Directions

Forage First Horse Rewards are nutritious, forage-based, limited starch, apple-flavored treats for all classes of horses. Feed a handful or more treats daily, as desired with no guilt. Feed by hand (carefully) or in the horse's feed tub.

Forage First Horse Rewards are nutritionally balanced and will not interfere with your total feeding program.

For free horse feeding suggestions, call the Equine Nutrition HELPLINE at 1-800-680-8254.

WARNING: This feed contains copper. Do not feed to sheep or other copper sensitive species.

CAUTION: Consumption of this product by sheep and goats may result in copper toxicity. Follow label directions. Feeding added selenium at levels in excess of 0.3 ppm in the total diet is prohibited.
