ACTIVE INGREDIENT:
Deltamethrin (CAS No. 52918-63-5) . . . 0.03%
OTHER INGREDIENTS 99.97%
Total 100.00%

Net Contents: 1 Quart (32 fl oz) (946 mL)

CAUTION: Contact with product may result in transient tingling and reddening of the skin. Avoid contact with skin or clothing. Thoroughly wash with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

ENVIRONMENTAL HAZARDS

This product is extremely toxic to fish and aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

Physical or Chemical Hazards

Do not apply this product in or on electrical equipment due to possibility of shock hazard.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STOP: Read entire label before use.

General Information: Hold container upright. Do not spray up into air. Apply to surfaces only as a spot and crack & crevice treatment. Turn sprayer nozzle to "on" position. Hold approximately 12 inches from surface to be sprayed. Squeeze trigger to spray until surface is slightly moist, but not to the point of runoff. Over application may cause damage. Test in an inconspicuous area before applying.

Do not allow children or pets to contact treated surfaces until spray has dried. This product's long-lasting action keeps on killing Argentine Ants and Cockroaches (American and German) for up to 18 months on non-porous surfaces and Flies for up to 5 months after you spray. More frequent applications may be necessary on concrete surfaces. Check these areas in 4 weeks and retreat if insect activity continues. Residual activity kills insects when they return to treated areas.

This product is intended to be used in and around residences and their immediate surroundings, such as (but not limited to): apartments, atriums, attics, automobiles, basements, bathrooms, boats, cabins, campers, carports, cat sleeping quarters, clothes storage, condominiums, decks, dens, driveways, garages, gazebos, homes, kitchens, lanais, living rooms, parlors, patios, pet sleeping areas, play rooms, porches, recreational vehicles, rooms, solariums, storage areas, sun rooms, utility rooms and verandas. Do not use in commercial food handling establishments, restaurants or other places where food is commercially prepared or processed.

INDOORS: Ants (including Argentine, Carpenter, Crazy, Fire, Harvester and Pharaoh), Asian Lady Beetles (Lady Bugs)*, Boxelder Bugs, Centipedes, Cockroaches (American and German, including adult and immature stages of both non-resistant and organophosphate- and carbamate-resistant strains), Crickets, Fleas, Kudzu Bugs*, Palmetto Bugs, Silverfish, Sowbugs, Stink Bugs*, Ticks and Waterbugs: Apply as a spot and crack & crevice treatment to areas where these pests crawl and hide, especially in hidden areas around sinks and storage areas; behind baseboards; around doors and windows; behind and under refrigerators, cabinets, sinks and stoves; and the underside of shelves, drawers, bookcases and similar areas. Cover all food handling surfaces and cover or remove all food and cooking utensils or thoroughly wash

after treatment. Cover or remove exposed food. Repeat as necessary, but not more than once per week. Ants: Spray ant trails and around doors, windows and other places where ants enter premises. Repeat as necessary, but not more than once per week. Carpenter Ants: For effective control, locate and treat nests and surrounding areas. Apply around doors, windows and other places where ants enter premises and where they crawl and hide. Spray into infested wood through existing openings. Fleas and Ticks (including Deer Ticks that may carry Lyme Disease) on Surfaces: Remove pet bedding and destroy or thoroughly clean. Spray pet resting quarters. Adult Fleas and Larvae contacted by spray will be killed.

Put fresh bedding down once spray has dried. Do not directly spray animals. For best results, treat pets with an appropriate flea and/or tick control product registered for use on pets before allowing them to return to the treated area. Spray rugs and carpets where infestations are bad. Test delicate fabrics for staining in an inconspicuous area prior to use. Spiders: Apply along and behind baseboards, to window and door frames, corners, pipes, storage localities, attics, crawl spaces and other areas over which these pests may crawl. Centipedes, Scorpions, Sowbugs and Ticks: Apply around doors and windows and other places where these pests may enter premises. Treat baseboards, storage areas and other locations where t
