

InTice[™] *Gelanimo* ant bait

The “No Spill, No Mess”
Bait that utilizes the
unique patent-pending
“rigid hydro-gel”
technology.

Product Codes:

IGAB030: 30, 0.25 oz ready-to-use stations

IGAB009: Display box of 9, 0.4 oz
ready-to-use stations

IGAB535: 5, 35 g syringes with plunger

IGABI24: 12, 4 oz cups

NEW STATION DESIGN

Innovative “Rigid Gel” Technology
High moisture content with a consistency similar to gelatin. Remains stable at temperatures up to 130° F. Gelanimo will not become sticky or gooey.

Highly Effective Gel Bait
Multiple ants can feed at once without drowning in the bait and can easily cut and carry pieces of Gelanimo[™] back to the nest site.

Broad Label
For use indoors, including food areas and outdoors.

Same Great Gel Bait in 3 Packaging Options
Available in ready-to-use 0.25 oz stations, 35 g syringes and 4 oz cups.

Solutions for Heavy Outdoor Infestations
For long term control of heavy outdoor infestations, 4 oz cups designed to be used with the InTice Border Patrol[™] Station are available.

Green Zone[™] Brand
Naturally derived active ingredient. Suitable for green service programs.

NEW BAIT STATION DESIGN

Easy-To-Use: Features an easy-to-remove sticker that covers the access hole for the ants, allowing for quick, tool-less placement in the field.

Improved Versatility: Low profile design (just under 1/2” high) for easy placement under appliances, on narrow ledges such as window sills, and other out of the way places.

Increased Bait Longevity: Utilizes a foil top, stronger seal and high-tech plastic construction to minimize moisture loss in storage and in use.

Reduces Risk: The new design minimizes the potential for non-target contact with the bait
