Bio Zap[™]

**Eliminates
Organic Odors**

Multiple Uses

**Treats the
Source**

No Harsh Chemicals or Fumes

DIRECTIONS FOR USE

InVade[™] Bio Zap[™] contains premium, natural microbes that eliminate organic debris and odors, and a light, natural citrus scent. It cleans the way mother nature intended without harsh chemicals or fumes. Do not apply to direct food contact surfaces or unsealed wood. Do not blend with bleach, acid or caustic cleaners, disinfectants or antimicrobial products. Contact us for recommendations for other applications.

Spray InVade Bio Zap on walls, floors, carpets and fabrics where pet, smoke, dead animal, skunk or excrement odors originate, just to the point of wetness. Always check a small area for color fastness before use. Rinse garbage receptacles with water and then spray product liberally onto surfaces. Spray gravel or soil surfaces in crawl spaces, concrete in basements or garages and other areas where sewage or wildlife have left odors. To neutralize and loosen bird droppings, spray until damp. Spray cracks, crevices, floors edges, garbage receptacles, bathroom walls, voids and urinals to eliminate odors. InVade Bio Zap may also be fogged into crawlspaces, attics and voids. It may be used straight or diluted with 1 to 2 parts water.

Precautions: Keep out of reach of children. If more than an incidental amount is swallowed, seek medical attention immediately. Give one glass of water and do not induce vomiting. Wash hands well after use. If in eyes, remove contacts and flush with water for 15 minutes. Seek medical attention for any persistent irritation. Store in a closed, appropriately labeled container between 35 and 95 °F.
