

# InVite™

fly gel lure

**A Potent, Non-toxic Gel Lure for House Flies, Blow Flies and Stable Flies**

Product Code:

IFGL035: single 35g syringe with plunger

**Potent, Non-toxic Gel Formulation**

Containing both food and pheromone attractants.

**Great for Placing on any Glueboard, Gluestick or Window Trap to Catch Filth Flies**

**Attracts House Flies and Blow Flies**

**Packaged in Standard Size Bait Syringes**

**Best Results Are Achieved When Applied Directly to any Insect Glueboard**

Including those inside light traps.

**Can Be Applied Onto Surfaces Treated With a Microencapsulated Product**

To create a “kill zone” where flies are attracted, land, contact the residual and die.

**Green Zone™ Product**

Suitable for green service programs.
