WARNING: Improper use or failure to follow instructions can result in explosive failure causing serious eye or other injury. For safe use of this product you must read and follow all instructions. Do not leave a pressurized sprayer in the hot sun. Heat can cause pressure build-up resulting in possible explosion. Do not store or leave solution in tank after use. Always wear goggles, gloves, long sleeve shirt, long pants and full foot protection when spraying. Never use any tool to remove pump if there is pressure in sprayer. Never stand with face or body over top of tank when pumping or loosening pump to prevent ejecting pump assembly and/or solution from striking and injuring you. Never pressurize sprayer by any means other than the original pump. Do not attempt to modify this sprayer. Replace parts only with manufacturer's original parts. Never spray flammable, caustic, acidic, chlorine, bleach or other corrosive solutions or heat, pressure, or gas producing chemicals. Always read and follow chemical manufacturer's instructions before use with this sprayer as some chemicals may be hazardous when used with this sprayer.

Industrial Water Supply Tank

Congratulations!
You have just purchased a quality Chapin product.

1. Hose to Tank

Make sure white outlet tube is attached to adapter.
Insert tube into tank.
Slip adapter nut down to tank, turn clockwise and tighten as tight as possible by hand.

2. Filling

1) Do: Turn pump handle counterclockwise and remove pump
2) Do: Prepare spray solution following all directions and safety warnings on chemical label.
3) Do: Fill tank to no more than the proper gallon marker. Do NOT: overfill to accommodate pump.
4) Do: Check pump to make sure that no grass or dirt is stuck to barrel. Replace pump in tank and tighten securely.

3. Pressurizing and Spraying

Do: Turn handle clockwise to tighten. Push handle down, turn 1/4 turn counterclockwise to release.
Do: Pump until you feel resistance.
Do: Push handle, down, turn 1/4 turn clockwise to lock. Begin spraying. Repump sprayer as required to maintain spray force.

4. Care, Storage and Maintenance

1) Do: Rinse tank thoroughly with water only, empty, refill with water. Follow Filling, Pressurizing and Spraying Instructions, except pump unit only 8-10 strokes.
2) Do: Store sprayer tank upside down, with pump removed, in a warm dry location.
3) Do: Periodically oil pump by dropping 10-12 drops of light oil down pump rod through opening in cover.
