

PENFILTRATE SELECT[™]

For improving moisture infiltration and penetration

**PRINCIPAL
FUNCTIONING AGENTS**

Alkoxyated polyols

% ACTIVE INGREDIENT

30%

FORMULATION

Concentrate

MODE OF ACTION

Soil wetting agent

RESTRICTED USE

No

EPA REGISTRATION

N/A; All ingredients are exempt from tolerance under 40 CFR 180

SIGNAL WORD

Caution

PACKAGING

2 x 2.5 gal

FOR USE WITH

Herbicides

Insecticides

Fertilizers

Penfiltrate Select[™] is a blend of 4 polymers in a precise ratio to encourage uniform, increased moisture penetration and some moisture retention for up to two weeks. The formulation ensures maximum uptake of water, and encourages improved rooting and nutrient uptake leading to greater plant health and uniformity of moisture in the soil profile.

PRODUCT BENEFITS

- Improves penetration and infiltration of water into the soil
- Reduces puddling and the amount of water lost to runoff and evaporation
- Economical water management for large areas of turf
- Increase moisture delivery to the root system
- Reduces LDS (localized dry spot)
- Increase the efficiency of irrigation
