# Bayer Environmental Science

MSDS Number: R000034193

# **Pre-Empt Professional Cockroach Gel Bait**

MSDS Version 2.0

#### **SECTION 1. CHEMICAL PRODUCT AND COMPANY INFORMATION**

Product Name Pre-Empt Professional Cockroach Gel Bait

Chemical Name Common Name

**MSDS Number** R000034193

Chemical Family

**Chemical Formulation** 

EPA Registration No. 432-1365

Bayer Environmental Science 95 Chestnut Ridge Road Montvale, NJ 07645

USA

For MEDICAL, TRANSPORTATION or Other EMERGENCY call 1-800-334-7577 24 hours/day For Product Information call 1-800-331-2867

Product Use Description Insecticidal bait for the control of cockroaches, including German, American,

Smokey Brown, Oriental and other cockroach species.

## **SECTION 2. COMPOSITION/INFORMATION ON INGREDIENTS**

Hazardous Component Name	CAS No.	Concentration % by Weight	
		Minimum	Maximum
Imidacloprid Technical	138261-41-3	2.0000	2.3000
Glycerine	56-81-5	10.2000	11.2000
Sodium hydroxide	1310-73-2	2.4000	2.6000

# **Pre-Empt Professional Cockroach Gel Bait**

MSDS Number: R000034193

MSDS Version 2.0

#### **SECTION 3. HAZARDS IDENTIFICATION**

NOTE: Please refer to Section 11 for detailed toxicological information.

Emergency Overview Caution! Causes moderate eye irritation. Avoid contact with eyes or clothing.

Wash thoroughly with soap and water after handling.

Physical State Paste

Appearance White

Routes of Exposure Inhalation, Skin contact, Eye contact, Ingestion

**Immediate Effects** 

**Eye** Causes moderate eye irritation. Do not get in eyes.

**Skin** May cause slight irritation. Avoid contact with skin or clothing.

**Ingestion** Do not take internally.

**Chronic or Delayed** 

Long-Term

This product is not listed by NTP, IARC or regulated as a carcinogen by OSHA.

#### **SECTION 4. FIRST AID MEASURES**

**Eye** Flush eyes with plenty of water. Call a physician if irritation persists.

**Skin** Wash with plenty of soap and water.

**Ingestion** Call a physician or Poison Control Center. Drink 1 or 2 glasses of water. If syrup

of ipecac is available, administer 1 tablespoonful (1/2 oz or 15 mL), otherwise induce vomiting by sticking finger down throat. If vomiting does not occur within 20 minutes, repeat the dose once. Do not induce vomiting or give anything by

mouth to an unconscious person.

Notes to physician

Treat symptomatically. Call the Medical Emergency Telephone Number on page

1 for additional information and/or instructions.

## **SECTION 5. FIRE FIGHTING MEASURES**

**Flash Point** > 93 °C / > 199 °F

**Suitable Extinguishing** 

Media

Water, Carbon dioxide (CO2), Dry chemical, Foam

# **Pre-Empt Professional Cockroach Gel Bait**

MSDS Number: R000034193 MSDS Version 2.0

Fire Fighting Instructions

Keep out of smoke. Cool exposed containers with water spray. Fight fire from upwind position. Use self-contained breathing equipment. Contain runoff to prevent entry into sewers or waterways. Equipment or materials involved in pesticide fires may become contaminated.

## **SECTION 6. ACCIDENTAL RELEASE MEASURES**

General and Disposal Keep unnecessary people away, isolate hazard area and deny entry. Do not

walk through spilled material.

Land Spill or Leaks Avoid contact with skin. Wear proper protective equipment. Dike contaminated

area with absorbent granules, soil, sand, etc. Material should be recovered. Carefully sweep up absorbed spilled material. Place in covered container for reuse or disposal. Scrub contaminated area with soap and water. Use dry absorbent material such as clay granules to absorb and collect wash solution for proper disposal. Contaminated soil may have to be removed and disposed. Do not allow material to enter streams, sewers, or other waterways or contact

vegetation.

#### **SECTION 7. HANDLING AND STORAGE**

**Handling Procedures** Handle and open container in a manner as to prevent spillage.

Do not use this product in or on electrical equipment due to the possibility of

shock hazard.

Use handling, storage and disposal procedures that will prevent contamination of water, food or feed. Keep exposed gel away from open food and food contact

surfaces.

**Storing Procedures** Do not contaminate water, food, or feed by storage or disposal.

Store in a cool, dry place and in such a manner as to prevent cross

contamination with other pesticides, fertilizers, food, and feed. Store in original container and out of the reach of children, preferably in a locked storage area.

Work/Hygienic Procedures

Wash hands thoroughly with soap and water after handling and before eating,

drinking, chewing gum, using tobacco, or using the toilet.

Launder clothing separately after use.

For end-use applications consult the product label.

Min/Max Storage Temperatures 30 day average temperature is not to exceed 38°C (100°F)

MSDS Number: R000034193 MSDS Version 2.0

**SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION** 

**Eye/Face Protection** Safety glasses

**Hand Protection** Chemical resistant gloves

**Body Protection** Long-sleeved shirt and long pants. Shoes plus socks.

**Respiratory Protection** When respiratory protection is necessary under the conditions of use, wear a

respirator approved for pesticides by the National Institute for Occupational

Safety and Health (NIOSH).

**General Protection** Clean water and soap should be available for washing in case of eye or skin

contamination.

Educate and train employees in safe use of the product. Follow all label

instructions.

**Exposure Limits** 

Glycerine 56-81-5 ACGIH TWA 10 mg/m3

#### **SECTION 10. STABILITY AND REACTIVITY**

**Chemical Stability** This is a stable material.

Hazardous Polymerization

(Conditions to avoid)

Will not occur.

#### SECTION 11. TOXICOLOGICAL INFORMATION

Only acute toxicity studies have been conducted on this product as formulated. The non-acute information pertains to the active ingredient, imidacloprid.

Acute Oral Toxicity Male and Female Rat: LD50: > 5,000 mg/kg

Acute Dermal Toxicity Male and Female Rat: LD50: > 5,000 mg/kg

Acute Inhalation Toxicity No data available

**Skin Irritation** Rabbit: Mild skin irritant.

**Eye Irritation** Rabbit: Minimal irritant.

**Sensitization** Guinea pig: Not a skin sensitizer.

**Sub-Chronic Toxicity** In a 3-week dermal toxicity study, rabbits treated with imidacloprid showed no

local or systemic effects at levels up to and including 1000 mg/kg, the limit dose.

In a 4-week inhalation study, rats exposed to high concentrations of imidacloprid exhibited decreased body weight gains and changes in clinical chemistries and

organ weights.

**Chronic Toxicity** In chronic dietary studies in rats and dogs exposed to imidacloprid, the target

organs were the thyroids and/or liver.

#### **Assessment Carcinogenicity**

In oncogenicity studies in rats and mice, imidacloprid was not considered carcinogenic in either species.

OSHA

None

Reproductive & **Developmental Toxicity**  REPRODUCTION: In a two-generation reproduction study in rats, imidacloprid was not a primary reproductive toxicant. Offspring exhibited reduced body weights at the high dose and in conjunction with maternal toxicity.

DEVELOPMENTAL TOXICITY: In developmental toxicity studies in rats and rabbits, there was no evidence of an embryotoxic or teratogenic potential for imidacloprid. In both species, developmental effects were observed only at high doses and in conjunction with maternal toxicity.

**Neurotoxicity** 

In acute and subchronic neurotoxicity screening studies in rats, imidacloprid produced slight neurobehavioral effects in each study at the highest dose tested. There were no correlating morphological changes observed in the neural tissues.

In a one-generation developmental neurotoxicity screening study in rats, offspring exposed to imidacloprid showed decreased body weights and motor activities. These effects occurred at the highest dose tested and in conjunction with maternal toxicity. There were no correlating morphological changes

observed in the neural tissues.

Mutagenicity

The imidacloprid mutagenicity studies, taken collectively, demonstrate that the active ingredient is not genotoxic or mutagenic.

## **SECTION 12. ECOLOGICAL INFORMATION**

**Ecological Information** 

For ecotoxicological data call the product information phone number listed in Section 1.

#### **SECTION 13. DISPOSAL CONSIDERATIONS**

**General Disposal** 

Guidance

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Contact

manufacturer. Contact the proper local authorities.

**Container Disposal** 

Do not re-use empty containers. Wrap container in several layers of newspaper

and discard in trash.

**RCRA Classification** 

Not Regulated under this Statute
