

Portable Aerosol System

PORTABLE AEROSOL SYSTEM

The B&G ULV Portable Aerosol Unit gives you deep wall void penetration, crack and crevice along with localized fogging capabilities and costs much less than competitive equipment. It has the capability of also doing a liquid only application for crack and crevice work or an air only application for use in a flushing operation.

- » One gallon stainless tank, can be easily removed from case for cleaning or filling.
- » Brass & Stainless Steel gun with your choice of 9" or 18" extension.
- » 10' self coiling hose (15' on Commercial Units)
- » Unit can be removed from case for spot treatments.
- » Many models available, including a commercial version, which features a fan cooled compressor along with a 15' hose.
- » Liquid pressure is adjustable to give you from a heavy mist to ULV fog.
- » All units are field repairable, no need to return the unit for service.
- » Save 90% on the cost of purchasing Aerosols in a can, create your own with the Portable Aerosol System.
