

GUARANTEED ANALYSIS:

Soluble Potash (K_2O) 5.0%
 Sulfur (S) 1.7%

DERIVED FROM: Potassium Sulfate

APPLICATION RATES: Avoid fertilizer application during hot and dry conditions. Irrigate thoroughly after fertilizer application. Some state and local governments may restrict the application rates of fertilizers on lawns. Check with local and state officials for maximum application rates before applying fertilizers. The application rate depends on the quality of your soil. Preferred application is pre-plant and incorporation in soil by tilling.

TURF: Recommended maximum application rate for deficient soil is 2 lbs. per 100 sq. ft. in early spring. Wait 60 days after any application to retest. If you still have a deficiency, make another application in the fall or the following season. For ease of application, dilute 2 lbs. or 3.5 cups in 1 gallon of water and apply 1 gallon per 100 sq. ft. At the recommended rate of 2 lbs. per 100 sq. ft., 1 gallon of concentrate will cover approximately 450 sq. ft.

VEGETABLES & FLOWERS: Preplant, apply 2 lbs. per 100 sq. ft. and till into soil. For ease of application, dilute 3.5 cups of liquid concentrate per gallon of water and apply at a rate of 1 gallon per 100 sq. ft. At the recommended rate of 1 lb. per 100 sq. ft., 1 gallon of concentrate will cover approximately 450 sq. ft.

TREES: Apply 2 lbs. per 100 sq. ft. out to drip line of tree. For ease of application, dilute 3.5 cups of liquid concentrate per gallon of water and apply at a rate of 1 gallon per 100 sq. ft. At the recommended rate of 2 lbs. per 100 sq. ft., 1 gallon of concentrate will cover approximately 450 sq. ft.

CAUTION: Avoid inhalation and ingestion. Use eye protection when handling. Prolonged contact may cause irritation of eyes, nasal passages and skin. Keep away from children and animals. Avoid spilling or spreading on concrete walks, driveways, plaster pool surfaces or masonry lawn ornaments. Seek medical attention if ingested.

STORAGE AND HANDLING: Store in a dry and low humidity location for long term storage. Do not store below 60° F.

MODEL # LSOP-1G
1 GALLON

Sunshine Harvest™

POTASSIUM SULFATE

0-0-5

- Soil test for potassium deficiency and pH prior to use is suggested
- Fast acting
- Provides energy for proper plant growth
- Strengthens immune system building better stems and stalks
- Helps regulate efficient water usage
- Balances plants protein synthesis and activates enzyme function
- Promotes sturdy stems and deeper roots
- Improves plants color and vegetable flavor
- Grows healthier lawns
- Increase yield and quality by regulating water, oxygen and CO2 exchange
